

BHT-400 Series

## COMING SOON!

\* Specifications are subject to change. Full specification sheets and brochures will be available soon.

This sleek and rugged handheld computer has all of the latest technologies to make data collection simple. The light weight and ergonomic design is perfect for users and the 3 year warranty is excellent for technical buyers. Additional features include: Barcode Imaging w/laser marker, Vibration, Direct Connect USB, Windows® CE.NET 5.0 and High Resolution Display.

### FEATURES:

- § **Windows® CE.NET 5.0**  
The latest Microsoft embedded Operating System provides an open architecture for application development.
- § **802.11b/g Wireless Compatible**  
The BHT-400 series is compatible with 802.11b/g standards. As part of your network infrastructure, the BHT-400 series can run applications in real time. It handles emulation, device management, and wireless network printing. It is also compatible to most 802.11b/g access points.
- § **Linear Barcode Imager**  
The BHT-400 series uses the advanced Denso CCD imager as its scan engine. With a laser scan marker and vibration the BHT-400 series features ease of use and confirmation of scanned barcodes.
- § **High Durability**  
The CCD scan engine has no moving parts ensuring superior durability. Shock Resistant to withstand multiple 5 ft. drops from 1.2m onto concrete, and sealed against water and dust to IP54 international standard.
- § **Multiple Communication**  
The BHT-400 Series offers multiple communication options. Communications include USB, IRDA 1.2, and wireless sync.
- § **Memory**  
The BHT-400 Series features 64MB RAM and 64MB ROM (32 MB Flash User Area available) offering plenty of storage for all your applications.
- § **Warranty**  
The BHT-400 Series has the best out of the box warranty in the industry! It has a 1 year warranty on LCD and selected manufactures radio card and a 3 year warranty on all other electronic components.
- § **Wireless Security**  
The BHT-400 Series supports WEP and WPA wireless security. Other features include support of 802.11x authentication.
- § **Bluetooth®**  
The BHT-400 Series supports Bluetooth® for wireless connections to multiple devices such as mag stripe readers and portable printers.
- § **Keyboard Wedge Software (KbifCE)**  
The kbifCE is a keyboard interface software built into the device. Using the kbifCE users can scan barcodes and/or input data without programming software for the device.
- § **Compact Flash Slot**  
Features extra storage capacity or the ability to run multiple programs.
- § **Readable barcodes**  
Supported barcodes are EAN-8/13, UPC-A/E, UPC/EAN with add-on, Interleaved 2 of 5, Code 39, Codabar, Code 93, Code 128, EAN-128 Standard 2 of 5, MSI.

Development tools include Microsoft® eMbedded™ Visual C++4.0 (SP1 or later) and Software Developer's Kit(SDK). SDK can be downloaded from our website.

PROGRAMMING: eVB, eVC++, VB, VC++, C#
